

REMARKS

Claims 1 to 52 are currently pending in the application and are allowed. Applicants are herein amending claim 1 to insert the phrase, "or pharmaceutically acceptable salts thereof" at the end of said claim.

Applicants gratefully acknowledge Examiner E. Sackey's oral approval of the after-allowance amendment of claim 1 during the June 13, 2006 telephone interview between the Examiner and the undersigned attorney. During the June 13 interview, Applicants stated that the omission of the phrase "or pharmaceutically acceptable salts thereof" at the end of claim 1 in the October 25, 2005 Response to the Office's July 26, 2005 Notice of Final Rejection was inadvertent and unintentional, and applicants herein reiterate the facts pertaining thereto in order to include them in the instant written record.

Applicants also stated and herein reiterate that the missing phrase was included in the Claims Appendix of Applicants' March 8, 2006 Appeal Brief, and when the Office suggested an Examiner's Amendment to claim 1 on May 8, 2006 to delete a semicolon and insert a period at the end of said claim, applicants, based on the version of pending claim 1 that was included with applicants' Appeal Brief, mistakenly believed that the phrase "or pharmaceutically acceptable salts thereof" appeared in the then-pending claim 1 and authorized the Examiner's Amendment.

Accordingly, Applicants submit that the failure to include the phrase "or pharmaceutically acceptable salts thereof" at the end of claim 1 in the October 25, 2005 Response to the Office's July 26, 2005 Notice of Final Rejection was inadvertent, and respectfully request entry of the amendment to claim 1 to correct this unintentional error.

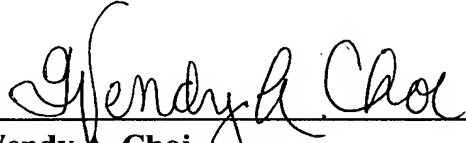

In view of the above, applicants respectfully request entry of the amendment to claim 1 pursuant to 37 C.F.R. § 1.312.
